COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

MUNICH, June 24, 2026 /PRNewswire/ â?? During Intersolar Europe 2026, Tongwei Solar received the Global Strategic Partner Award from TÃ?V Rheinland and showcased its TNC 1.0, TNC 2.0 and TNC 3.0 high-efficiency solar cell portfolio. The recognition reflects international acknowledgment of Tongwei Solarâ??s product quality, technological capabilities and global collaboration strength, while highlighting its integrated capabilities spanning cell innovation, large-scale manufacturing and downstream module value creation.

During Intersolar Europe 2026, TÃ?V Rheinland presented Tongwei Solar with the Global Strategic Partner Award, recognizing the companyâ??s strengths in product quality, technological capabilities and global collaboration.

Addressing global customer demand for higher power output, stronger bifacial performance and long-term reliability, Tongwei Solar showcased its TNC 1.0 through TNC 3.0 high-efficiency cell portfolio. The TNC 3.0 multi-cut cell integrates TPE, multi-cut and Poly Tech technologies, enabling module power gains of more than 10 W, a five-percentage-point increase in bifaciality and conversion efficiency exceeding 26.3%. These improvements provide greater flexibility for module design while enhancing system-level energy yield and customer value.

Tongwei Solar currently has more than 150 GW of N-type high-efficiency cell production capacity and cumulative cell shipments exceeding 400 GW, ranking first globally in solar cell shipments for nine consecutive years. Supported by intelligent manufacturing, cell-level traceability and full-process quality control, the company continues to strengthen product consistency, reliability and large-scale delivery capabilities, providing global customers with efficient, stable and scalable solar cell solutions.
