Inspired by light and the ocean, the atmosphere of the redesigned lounge is calm and elegant. The lounge features a refined white, black, and blue palette in harmony with Tokyo Bay, which it overlooks. Lighting fixtures incorporating translucent natural alabaster cast a soft glow that gently envelops the space, while iridescent glass tiles in black and white create subtle variations as the light changes, adding refined nuance to the interior. Additionally, a new common space is being introduced in the lounge that includes a high-top table. With sliding partitions that allow the area to be used as a private room when needed, it can now accommodate a wider range of guest needs and occasions.
