COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

XIAMEN, China, April 13, 2026 /PRNewswire/ - Milesight, a leading provider of innovative IoT products, today announces the official launch of its new industrial networking division, Milesight Networks, marking a strategic expansion of its industrial connectivity capabilities.

Backed by years of IoT expertise, Milesight Networks leverages the consolidated resources of Milesight to enhance product quality, accelerate service responsiveness, and deepen technical specialization.

Beyond products, Milesight Networks upgrades its value proposition to offer stronger service support and a more sustainable competitive edge. With high-quality, value-driven solutions, it brings advanced capabilities within reach of a wider range of industries.

Addressing Industrial Connectivity Challenges

Industrial environments today face persistent challenges, including unreliable connections, data security risks, harsh operating conditions, limited interface compatibility, and rising bandwidth demands. These issues often result in service interruptions, data loss, device damage, and operational inefficiencies.

Milesight Networks addresses these challenges with a comprehensive set of capabilities:

Comprehensive Product Portfolio for Broad Applications

Milesight Networks' lineup includes:

The lineup delivers reliable 4G and 5G connectivity to meet diverse needs across industries such as surveillance, energy, banking, transportation, industrial automation, smart retail, and more.
