New Solutions for the Evolving Fire Service: Expanded M1 SCBA Telemetry System

Now available in Germany and across Europe, the M1 SCBA Telemetry System enhances command-level visibility and firefighter accountability by transmitting real-time SCBA data to incident command. Powered by the M1 Control Module, the system enables incident commanders to monitor individual firefighter and team status, send evacuation alarms, and confirm acknowledgments. Key components include:

Together, these capabilities help to improve situational awareness by relaying safety information to the right people at the right time in a clear, actionable format.

An Icon, Evolved: The GALLET F1® Fire Helmet

Building on more than 40 years of firefighter helmet heritage, the new GALLET F1 Fire Helmet provides excellent protection from heat, impacts and debris while delivering on the comfort, fit and modularity

firefighters want.

The helmet offers broad sizing options to accommodate a wide variety of head shapes, sizes, and hairstyles, and supports a modular configuration for accessories tailored to brigade needs. A newly designed, helmet's integrated lighting option further enhances operational visibility. Key features include:

The new GALLET F1 Fire Helmet will be available later this year.

The Bristol X1's Fire Protective Suit: "Fit to Form"

The Bristol X1 Fire Suit introduces a new level of personalization and adaptability in structural firefighting garments. Designed for a more personalized fit, the X1 jacket and trousers combine lightweight materials with protection from thermal and fire scene exposures. With more than 1,000 fit configurations, the suit accommodates many body types, genders, operational roles and climate conditions. Features include:

The Bristol X1 Fire Suit will be available later this year.

Advancing Firefighter Safety Through Integration

"Our mission is to advance firefighter safety through comprehensive, head-to-toe solutions that combine protective equipment, connected technology, and seamless integration," said Jose Sanchez, President of MSA Safety's EMEA Region. "We design easy-to-use systems that help firefighters stay safe, accounted for, and focused on the job at hand. By combining innovative products with deep fire service expertise, MSA, Bristol, and Gallet deliver solutions that elevate performance, strengthen partnerships with fire brigades, and help firefighters protect their communities more efficiently and effectively."
