COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

SLIEMA, Malta, March 30, 2026 /PRNewswire/ â?? Casinofy, a forward-thinking leader in the online casino space, today announced the launch of its completely redesigned platform featuring cutting-edge AI chat technology, a modernized user interface, and a suite of innovative features that position the company at the forefront of the iGaming industry.

A Bold Leap Forward in Online Casino Innovation

The newly redesigned Casinofy platform represents one of the most ambitious overhauls in the online casino sector. With a focus on user experience, intelligent personalization, and next-generation technology, Casinofy is redefining what players expect from an online gaming destination.

Key highlights of the new platform include:

AI Chat: A Game-Changer for Player Experience

At the heart of the new Casinofy experience is its proprietary AI chat system â?? a feature that goes far beyond traditional customer support. The AI assistant understands context, remembers player preferences, and delivers instant, accurate responses on everything from game rules and bonus terms to account inquiries.

Unlike conventional chatbots, Casinofyâ??s AI chat is designed to enhance every touchpoint of the player journey, making it one of the most sophisticated implementations of artificial intelligence in the online casino industry to date.

Leading the Industry Through Innovation

While the online casino market continues to grow, few operators have invested as heavily in technology-driven differentiation as Casinofy. The new platform positions Casinofy among the most

innovative operators globally, bridging the gap between traditional online gaming and the AI-first future of digital entertainment.

The Casinofy team said that they are not just keeping up with the industry, but setting the pace. The new platform is built on the belief that players deserve smarter, faster, and more personalized experiences. They added that the integration of AI chat is just the beginning of what they have planned.
