

EKA Mobility Achieves 5x Volume Growth

Descrizione

COMUNICATO STAMPA • CONTENUTO PROMOZIONALE

PUNE, India, April 1, 2026 /PRNewswire/ • EKA Mobility, a leading electric vehicles and technology company, today announced a strong 5X year-on-year volume growth in FY 2025-26, with 1,143 units sold and 1,344 electric commercial vehicles produced. This milestone comes on the back of the company's comprehensive electric vehicle portfolio across segments. During the year, EKA entered the M&HCV truck segment, in addition to its existing bus and SCV portfolio. The company is a Champion OEM under the Auto PLI Scheme and has achieved certification across multiple platforms.

FY 2025-26 is a defining year for EKA Mobility. We are not only scaling volumes but also expanding our manufacturing footprint by adding a new plant recently and increasing our planned annual capacity to 10,000 buses, 6,000 trucks and 24,000 SCVs. With the widest range of fully homologated, born-electric platforms from last-mile to long-haul, we are uniquely positioned as a full-stack EV company. Our growth across electric buses, small commercial vehicles, and now trucks validates both market demand and our execution capability. India's transition to clean commercial mobility is accelerating, and EKA is at the forefront driving this shift at scale, with technology, innovation, and global ambition. •
