

ELEGOO to Launch Multicolor 3D Printer Centauri Carbon 2 Combo on January 26

Descrizione

COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

SHENZHEN, China, Jan. 19, 2026 /PRNewswire/ â?? ELEGOO, a rapidly developing brand in global smart manufacturing, announces today it will launch the multicolor 3D printer Centauri Carbon 2 Combo at 9 AM EST/ 5PM CET on January 26. The new product is positioned as a family-friendly multicolor 3D printer aimed at bringing professional printing performance accessible to beginners, hobbyists or professionals at home, helping them to transform creativity into instant reality.

Key Features & Highlights

Designed with everyday households in mind, the Centauri Carbon 2 Combo makes multicolor 3D printing truly accessible through ELEGOOâ??s intelligent CANVAS system. The system enables smooth, automatic color switching with instant filament loading and built-in filament backup, eliminating the complexity typically associated with multicolor printing. With RFID-based filament detection, CANVAS automatically identifies material types and recommends optimal settings tailored for the 3D model files instantly downloaded from Nexprint, a platform designed to connect creators with users worldwide by enabling seamless sharing and downloading of 3D models. This allows beginners, hobbyists, and experienced makers alike to print confidently without extensive setup or technical knowledge or CAD design skills.

Combined with a quiet 45 dB operating noise, the printer blends seamlessly into family environmentsâ??whether placed in a living room, home office, garage or shared creative spaceâ??without disrupting daily activities. The experience is further simplified by an intuitive 5-inch capacitive touchscreen that responds like a smartphone and supports 11 languages, making it easy for different family members to use the printer for a wide range of needs, from educational projects and creative hobbies to personalized household items.

Other notable upgrades include high-temperature nozzle for expanded material support, faster and smarter auto-leveling, and smart temperature control. Together, these features position the Centauri

Carbon 2 Combo as a truly family-friendly multicolor 3D printer, designed to serve diverse users and everyday creative scenarios at home. It represents the shift of a significant step forward in the democratization of 3D printingâ??bringing 3D printer closer to every household.

For full specs, pricing, and other details, please subscribe to newsletter on ELEGOOâ??s official website to receive updates on January 26.

About ELEGOO

Founded in 2015, ELEGOO is a rapidly developing brand in the global smart manufacturing industry, specializing in R&D, manufacturing, and sales of consumer-grade 3D printers, laser engravers, STEM kits, and other smart technology products. Located in Shenzhen, the Silicon Valley of China, the company has sold millions of products across more than 100 countries and regions. In 2025, the companyâ??s total sales revenue surpassed 300 million USD, with more than 1000 employees and nearly 30,000 square meters of office and manufacturing area. With a focus on programming and 3D printing technology, ELEGOO provides unique and smart creation spaces for diverse consumers to enhance personalized experiences.
