Latest wearable from Huawei turns your wrist into a smart, secure, cashback-earning wallet, designed for the generation that leaves their phone in their bag

LONDON, May 13, 2026 /PR Newswire/ • The HUAWEI WATCH FIT 5 Series was officially launched on 7 May at Huawei's "Now Is Your Spark" global product launch event in Bangkok, Thailand.

Combined with Curve Pay, which enables a truly wallet and phone-free payment experience at any contactless terminal, the HUAWEI WATCH FIT 5 Series becomes the ultimate everyday companion for a young and active generation that wants to travel light, stay connected, and leave the phone behind.

Part of Huawei's commitment to the evaluation and accessibility of wearable-first payments without compromising on security or convenience, this exciting partnership with Curve also reflects a broader industry shift, with digital and contactless payments now becoming embedded in everyday life. By continuing to expand payment capabilities across its wearable portfolio and rapidly integrating Curve Pay into the new HUAWEI WATCH FIT 5 Series, Huawei is reinforcing its commitment to delivering seamless, secure and convenient phone-free payment experiences for European consumers*.

KEY FEATURES

Tap to Pay: One Smart Wallet on Your Wrist

The HUAWEI WATCH FIT 5 Series supports Curve Pay NFC contactless payments and tap to pay at any compatible terminal with a single gesture from the watch. Curve consolidates multiple bank cards into one smart account, letting you choose your preferred payment card anytime in the mobile app.

Secure Off-Wrist Detection

The HUAWEI WATCH FIT 5 Series includes secure off-wrist detection: if the watch is removed from the wearer's wrist, a passcode is automatically triggered before payments or sensitive features can be accessed.
