COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

Leveraging Infosys Topaz, the collaboration will help ABN AMRO drive operational efficiency, scalability, and innovation

BENGALURU, India, Sept. 30, 2026 /PRNewswire/ - Infosys (NSE: INFY) (BSE: INFY) (NYSE: INFY), a global leader in AI-first business consulting and technology services, and ABN AMRO Bank, one of the largest banks in the Netherlands, today announced the extension of their strategic collaboration to accelerate the bank's AI-driven transformation. As part of this, Infosys will deliver application development, testing, and support services to simplify and modernize ABN Amro's IT landscape, enhance operational efficiency and scalability, while enabling greater innovation.

By moving beyond isolated AI initiatives to enterprise-wide adoption, the collaboration is focused on unlocking AI value at scale. Leveraging Infosys Topaz, an AI-first offerings using generative and agentic AI technologies, Infosys will help ABN AMRO embed AI more deeply across its technology estate, enabling the bank to translate data into insight-driven innovations. By streamlining platforms, improving agility, and strengthening the delivery of digital services across the enterprise, Infosys will enable faster value realization. Drawing on its global engineering talent and alternative delivery models, Infosys will support sustained efficiency gains while building a scalable, secure, and future-ready IT foundation that fosters continuous innovation.

Carsten Bittner, Chief Innovation and Technology Officer at ABN AMRO Bank, said, "The renewed collaboration with Infosys will help further to simplify and modernize our IT landscape, while accelerating the responsible adoption of AI across the company. This engagement will enhance operational efficiency, deliver greater customer value, and help reduce complexity and operating costs."

Jay Nair, EVP, Industry Head, Financial Service and Public Sector, Infosys, said, “This renewal marks an important milestone in our relationship with ABN AMRO and underscores the trust placed in Infosys. We are bringing together deep domain expertise, a resilient global delivery model, and the power of Infosys Topaz to help re-architect core systems, simplify complex IT landscapes, and operationalize AI in a purposeful way. Our focus is not just on transformation at scale, but on delivering it with precision, efficiency, and long-term sustainability for the bank.”

About Infosys

Infosys (NSE: INFY) (BSE: INFY) (NYSE: INFY) is a global leader in AI first business consulting and technology services. Over 325,000 of our people work to amplify human potential and create the next opportunity for people, businesses, and communities. As navigators of enterprise transformation, we enable businesses in 59 countries to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, we accelerate business transformation through our AI-first value framework, deep domain expertise, and our unique ability to orchestrate innovations from our AI-native partner ecosystem. Infosys is recognised as the fastest growing IT services brand globally, committed to being a well-governed, environmentally sustainable partner for our clients where deep talent expertise, in an inclusive workplace, help them navigate their next.

Safe Harbor

Certain statements in this release, including those concerning our future events, future growth prospects, our future financial or operating performance and our offerings and collaborations are “forward looking statements” intended to qualify for the “safe harbor” under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. These forward-looking statements are subject to substantial known and unknown risks, uncertainties and other factors, that could cause actual results or outcomes to differ materially from those implied by such forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes, particularly in the United States, our Environmental, Social, Governance (“ESG”) vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2026. These filings are available at www.sec.gov. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company’s filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not

undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
