COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

Leveraging NICE Actimize Xâ??Sight platform, the collaboration unifies DNBâ??s financial crime systems into an intelligence driven, cloud-native platform

BENGALURU, India, June 2, 2026 /PRNewswire/ â?? Infosys (NSE: INFY) (BSE: INFY) (NYSE: INFY), a global leader in AI-first business consulting and technology services, today announced the expansion of its strategic collaboration with DNB Bank ASA (DNB), Norwayâ??s largest bank, to modernize its Financial Crime (FinCrime) operations using NICE Actimize X-Sight Enterprise platform. Through this engagement, Infosys will help DNB transform fragmented, legacy systems into a unified, intelligence-driven, cloud-native platform that enhances risk insights, improves detection accuracy, and strengthens multi-jurisdiction regulatory compliance.

As the systems integration partner, Infosys will in collaboration with DNB lead the end-to-end modernization of the bankâ??s FinCrime technology landscape, including enterprise architecture design, platform integration, and data migration. It will consolidate key functions including customer and payment screening, customer due diligence, and transaction and fraud monitoring onto a single, scalable SaaS platform with unified enterprise case management.

Leveraging its expertise in transforming anti-FinCrime systems, Infosys will implement NICE Actimize X-Sight platform, a secure and scalable system that supports seamless data integration, advanced analytics, and intelligent automation. Infosys will integrate X-Sightâ??s key solutions for anti-money laundering and fraud to provide DNB with a holistic view of customer risk visibility and improve detection of complex and evolving financial crime patterns. By implementing the platformâ??s AI-driven capabilities, Infosys will deliver value at scale, enabling advanced automation and laying the groundwork for continuous innovations, including intelligent orchestration and AI-assisted investigations. This will enhance detection accuracy, accelerate investigations with actionable insights, and improve DNBâ??s response time to regulatory demands, future-proofing its financial crime controls.

Elin Sandnes, COO and Group Executive Vice President Technology & Services, DNB, said, â??Protecting customers and the integrity of the financial system requires us to continuously raise the bar on detection and investigation. By working closely with Infosys and leveraging NICE Actimizeâ??s Xâ??Sight Enterprise platform, we are enhancing our ability to detect, investigate, and prevent complex financial crime more effectively, while supporting our longâ??term digital transformation and regulatory compliance objectives.â?•

Craig Costigan, Chief Executive Officer, NICE Actimize, said â??Financial institutions globally are seeking more intelligent, cloudâ??native approaches to combat evolving financial crime. Through this collaboration with Infosys, our Xâ??Sight Enterprise platformâ??s AI-driven capabilities will help protect DNB and its customers from growing fraud and financial crimes, while boosting operational efficiency and reducing costs.â?•

Dennis Gada, Executive Vice President and Global Head of Banking & Financial Services, Infosys, said, â??Legacy systems are struggling to keep pace with the rapid evolution of financial crime. By consolidating antiâ??money laundering and fraud capabilities onto an AIâ??enabled enterprise cloud platform, weâ??re helping DNB Bank ASA move from fragmented controls to a unified, intelligenceâ??led operating model. This allows the bank to detect earlier, investigate smarter, and respond with greater consistency across jurisdictions. This modernization program reinforces our role as the strategic system integration and transformation lead, bringing intelligent operations to unlock AI value at scale across monitoring, detection, and investigations.â?•

About DNB Bank ASA

DNB is Norwayâ??s largest financial services group and one of the largest in the Nordic region in terms of market capitalisation. The Group offers a full range of financial services, including loans, savings, advisory services, insurance and pension products for retail and corporate customers.

DNBâ??s mobile solutions, internet bank, customer service centres, real estate broking- and branch offices in Norway as well as international offices ensure that we are present where our customers are. We are a major operator in a number of industries, for which we also have a Nordic or international strategy.

DNB is now much more than Norwayâ??s largest bank and a key business in the Norwegian economy. As Norwayâ??s largest bank we are also a leading technology company.
