New streamlined flagship range simplifies product selection for businesses without altering trusted, high-performance formulas

KUALA LUMPUR, MALAYSIA â?? Media OutReach Newswire â?? 27 April 2026 â?? PETRONAS Lubricants International (PLI) announced the launch of the PETRONAS Pro Series, its new flagship range of industrial lubricants, during a trade engagement session in Kuala Lumpur. The launch marks a significant milestone in the companyâ??s commitment to advancing industrial efficiency and supporting the professionals who keep the worldâ??s essential industries moving.

The new PETRONAS Pro Series now offers a comprehensive set of application-based solutions organised into application categories, with the first four unveiled as part of this initial launch. The PETRONAS Pro Series is designed to empower customers to select the right fluid with total confidence, ensuring maximum uptime and equipment longevity through the following products:

â??With the PETRONAS Pro Series, we reaffirm our commitment to the professionals who power industries, and to an industrial future that is more efficient, more reliable, and more sustainable,â?• said Udaya Kumar, Group Industrial Managing Director of PETRONAS Lubricants International, at the

launch. He added, â??By streamlining our offerings, we are making it easier for our partners to access the world-class technology they trust, allowing them to focus on driving their operations forward.â?•

The PETRONAS Pro Series strengthens PLIâ??s broader lubricants portfolio, which serves mobility, industry, and future energy systems through its core brands: PETRONAS Syntium, PETRONAS Sprinta, PETRONAS Urania, PETRONAS Iona, PETRONAS Arbor, PETRONAS Tutela, and now PETRONAS Pro.

Every product within the range is powered by PETRONAS Fluid Technology Solutionsâ?¢, a proprietary technology platform developed through decades of global R&D and motorsports expertise. This ensures that the same innovation driving performance on the worldâ??s toughest racetracks is adapted to meet the rigorous demands of real-world industrial applications.
