

PrimeBOT to Showcase PrimeBOT T1 and PrimeBOT Q1 at IFA 2026 and ShowStoppers

Descrizione

COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

BERLIN, Sept. 1, 2026 /PRNewswire/ â?? PrimeBOT, an embodied intelligence company, will showcase its latest consumer-grade personal robots, PrimeBOT T1 and PrimeBOT Q1, at IFA 2026, with live demonstrations at Booth H25-150 throughout the show and an additional preview at ShowStoppers on September 3.

Built around PrimeBOTâ??s vision of â??Creating a Better Life through Embodied Intelligence,â?• the two products demonstrate the companyâ??s approach to bringing personal robotics into everyday life through mobility, learning, creativity, customization, and companionship.

PrimeBOT T1 is the first transformable personal robot designed to switch between humanoid and quadrupedal modes for continuous use across indoor and outdoor environments. Its capabilities include intelligent following, autonomous filming, 15+ professional camera-movement templates, and education-focused interaction designed to help children become more familiar with AI, prompting, and human-AI collaboration.

PrimeBOT Q1 is the first personal robot combining deep customization, programmable capabilities, multi-modal interaction, and advanced motion in an 88 cm-tall platform. It features 22 degrees of freedom, supports 10+ martial arts movements, and is designed for safer, more natural close-range interaction. Users and developers can personalize appearance, voice, personality, behaviors, and future applications.

Media, creators, partners, and IFA visitors are invited to experience both robots in person at PrimeBOT Booth H25-150. PrimeBOT will also participate in ShowStoppers @ IFA on September 3, offering an early opportunity for hands-on demonstrations and product conversations.

About PrimeBOT

PrimeBOT is an embodied intelligence company pioneering the emerging consumer-grade personal robot category. The company develops programmable robots for companionship, learning, creativity, mobility, and everyday assistance. Combining robotics, advanced materials, motion systems, human-robot interaction, and open development platforms, PrimeBOT is building a personal robotics ecosystem that connects AI with the physical world.
