COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

End-to-end safety foundation to speed case processing and enable automation

BARCELONA, Spain, June 9, 2026 /PRNewswire/ - Veeva Systems (NYSE: VEEV) today announced that UCB is unifying its global safety operations with Veeva Safety Suite to maximize operational efficiency and scale. UCB is standardizing safety on a single platform to accelerate case processing, strengthen oversight, and streamline submissions to health authorities.

"Moving our teams onto Veeva Safety Suite is a core step in UCB's safety transformation, helping streamline global and local workflows with a single source of truth for safety data," said Jonas Maselis, head of digital technology, patient safety, UCB. "As we use automation to drive low-touch case processing, our strategic partnership with Veeva positions us well for what's next."

UCB will use Veeva Safety Suite's unified platform for end-to-end safety management, with Veeva Safety to streamline the intake, processing, and submission of adverse events and Veeva SafetyDocs to manage all safety-related content and processes. Veeva Safety Workbench will enable advanced data analysis for fast, scalable reporting, and Veeva Safety Signal will automate signal detection for better visibility and alignment across the organization. In addition, the Veeva Safety-RIM Connection will share product information automatically across regulatory and safety operations for clean and trusted data.

"UCB is building a foundation powered by Veeva Safety Suite to simplify and standardize their global pharmacovigilance function," said John Lawrie, vice president, Veeva Safety. "With a unified and connected approach, UCB is enhancing global compliance and driving advanced automation to deliver safe and effective medicines to patients."

About Veeva Systems Veeva delivers the industry cloud for life sciences with software, AI, data, and consulting. Committed to innovation, product excellence, and customer success, Veeva serves more

than 1,500 customers, ranging from the world's largest pharmaceutical companies to emerging biotechs.
