Ethena: 1.72%

default watermark

In connection with this monthâ??s rebalancing, four new crypto assets are being added to the index: Ethena (ENA), Canton (CC), TRON (TRX), and BNB (BNB).

The index is rebalanced quarterly to reflect market changes and ensure it continues to represent the most relevant and qualitative crypto assets. The rebalancing adjusts weighting based on the square root of each crypto assetâ??s market capitalization and may involve removing or adding certain assets.

The performance of Virtune Stablecoin Index ETP in June was -17.87%.

Virtune Stablecoin Index ETP is a physically backed Exchange Traded Product (ETP) designed to offer investors a simple, secure, and cost-effective way to gain exposure to the expanding stablecoin ecosystem. The product tracks a diversified index of digital assets that provide the infrastructure and rails making stablecoins possible and that stand to benefit from their growing adoption and use.

If you, as an (institutional) investor, are interested in meeting with Virtune to discuss the opportunities our ETPs offer for your asset management services or to learn more about Virtune and our ETPs, please do not hesitate to contact us at hello@virtune.com. You can also read more about Virtune and our ETPs atwww.virtune.com and register your email address on our website to subscribe to our newsletters, which cover updates on Virtuneâ??s upcoming ETP launches and other news related to digital assets.
