
Virtune Expands in Poland with First-Ever Crypto Index ETP on the Warsaw Stock Exchange

Descrizione

COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

Warsaw, April 8, 2026 â?? Virtune, the Swedish regulated crypto asset manager, today announces the listing of the Virtune Coinbase 50 Index ETP on the Warsaw Stock Exchange (GPW), marking the first-ever crypto index ETP listed in Poland and traded in PLN.

Following the recent introduction of Polandâ??s first spot crypto exchange-traded products (ETPs), this launch represents the next step in the development of the Polish market â?? enabling investors to gain broad, diversified exposure to the crypto market through a single, exchange-traded product.

A New Way to Access the Crypto Market

The Virtune Coinbase 50 Index ETP tracks the Coinbase 50 Europe Index (COIN50E) â?? a benchmark developed by Coinbase, one of the worldâ??s leading crypto companies, in collaboration with MarketVector.

Designed to become the crypto marketâ??s equivalent of the S&P 500, the index aims to capture the performance of up to 50 of the largest and most liquid crypto assets (26 assets as of April 7, 2026).

Allocation as of April 7, 2026:https://www.virtune.com/product/vcoin50

Through a single investment, investors gain exposure to Bitcoin combined with a broad range of crypto assets covering multiple crypto sectors, including:

Institutional-Grade Selection and Construction

All assets included in the index undergo a rigorous selection process focused on quality, liquidity and investability.

Key features include:

In addition, all assets included in the ETP must meet requirements for listing on European regulated exchanges, supporting tradability and liquidity.

Simplifying Crypto Investing for Polish Investors

Investing in crypto assets has traditionally required using multiple platforms and wallets, as well as selecting individual assets.

The Virtune Coinbase 50 Index ETP simplifies this by offering:

Christopher Kock, CEO of Virtune:
â??Following the successful launch of Polandâ??s first spot crypto ETPs, we are now taking the next step by introducing the first crypto index ETP to the Warsaw Stock Exchange.

With the Virtune Coinbase 50 Index ETP, investors no longer need to pick individual crypto assets â?? they can gain diversified exposure to the broader market through a single exchange-traded product.

We see this as an important milestone in expanding our offering in the Polish market and we believe that the demand for diversified exposure within the crypto market will continue to grow as the market matures.â?•

A Continued Commitment to the Polish Market

The listing of the Virtune Coinbase 50 Index ETP reflects Virtuneâ??s long-term commitment to Poland as a strategic growth market.

Virtune plans to continue expanding its product offering on GPW throughout 2026, contributing to the development of the local exchange-traded product ecosystem and supporting investor education around digital assets.
