COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

Warsaw, June 17, 2026 - Virtune, the Swedish regulated crypto asset manager, today announces the listing of the Virtune Crypto Altcoin Index ETP (VIRALT) on the Warsaw Stock Exchange (GPW), further expanding its offering in the Polish market.

The listing marks Virtune's sixth exchange-traded product (ETP) listed on GPW since entering Poland in February 2026 and reflects the company's continued commitment to providing Polish investors with regulated and innovative crypto investment products.

Diversified Exposure to the Altcoin Market

The Virtune Crypto Altcoin Index ETP provides investors with diversified exposure to up to 10 leading altcoins through a single exchange-traded product.

Through one investment, investors gain equal-weighted exposure to a basket of established crypto assets, excluding Bitcoin and Ethereum, allowing investors to participate in the broader altcoin market without having to select individual assets.

Allocation as of June 15, 2026:

The index is rebalanced monthly to maintain its equal-weight methodology and ensure continued diversified exposure across the constituent altcoins.

Rather than selecting individual crypto assets, investors gain diversified exposure to a broad segment of the crypto market through an exchange-traded investment product traded in Polish zÅ?oty.

Meeting Growing Demand for Diversified Crypto Investments

As the crypto market continues to mature, investor demand for diversified investment products has increased significantly.

The Virtune Crypto Altcoin Index ETP is designed to simplify crypto investing by providing:

Christopher Kock, CEO of Virtune: “We are seeing growing demand from investors looking for diversified exposure to the crypto market through simple, transparent and regulated investment products. While single-asset products remain important building blocks, we believe diversified crypto investment products may become one of the most attractive ways for investors to participate in the long-term growth of the crypto market.

The listing of the Virtune Crypto Altcoin Index ETP marks our sixth product on the Warsaw Stock Exchange since entering Poland earlier this year and further strengthens our commitment to the Polish market.

Continued Commitment to the Polish Market

Since launching Poland’s first spot crypto ETPs earlier this year, Virtune has continued to expand its local offering to meet growing investor demand for crypto ETPs.

The listing of the Virtune Crypto Altcoin Index ETP represents another step in Virtune’s long-term commitment to Poland as a strategic growth market.

Virtune plans to continue expanding its product offering on GPW throughout 2026, supporting both the development of the local exchange-traded product ecosystem and investor education around crypto assets.
