COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

NICOSIA, Cyprus, Sept. 18, 2026 /PRNewswire/ â?? Xryma Plc (â??Groupâ?•, â??Xrymaâ?•), a banktech group providing regulated cross-border open banking, international transactional banking and real-time EU and UK payment services, whilst also independently offering banking software and technology to third party banks and financial institutions, today announced its audited H1 2026 financial results for the six months ended 30 June 2026.

â??The first half of 2026 remained firmly within the strategic investment period we outlined to shareholders. We made a conscious decision to prioritise the infrastructure and new opportunities required for Xrymaâ??s next phase of growth, accepting the near-term impact this would have on Client Revenue and profitability,â?• said Ajay Treon, Group Chief Financial Officer & Executive Director, Xryma Plc.

â??Importantly, that investment is now translating into delivery. We completed our Eurosystem T2 integration in June, continued to progress TIPS, PaidByÂ® and XrymaCoin, while Technology Services(as defined in the Prospectus) continued its strong growth, with revenue increasing 77%. Our SaaS and Banking Platform activities provide stable recurring income alongside higher-value consulting, bespoke development and customisation revenues.

We have achieved this while remaining profitable and maintaining a strong financial position, ending H1 2026 with â?¬59.4 million of net assets and â?¬50.9 million of cash. As the principal build phase of our strategic investment programme approaches completion, our focus is now shifting to activation, commercialisation and growth. We expect to see the first signs of that commercial momentum in Q4 2026, with the benefits of the investments we have made beginning to materialise from 2027 through revenue growth and operating leverage.â?•

H1 2026 Highlights

Nikogiannis Karantzis, Group Managing Director & Chief Executive Officer, Xryma Plc said: â??Our commitment to delivering outstanding products and services to our existing customers remains unwavering. We are dedicated to expanding our customer base and increasing revenues in H2 2026, following the deep infrastructure upgrades of 2025 and H1 2026. Whilst this upgrade programme has impacted our short-term performance, we are of the belief that Xryma will be better positioned to grow revenues in the mid to long-term, with better margins due to our unique positioning in the market.

We are also pleased to have announced that the companyâ??s Prospectus was approved by its competent authority, the Cyprus Securities and Exchange Commission (CySEC) on the 14th of July 2026.We will continue to advance our stock exchange listing plans, thus providing liquidity to our existing shareholders, broadening access to capital markets and supporting the Groupâ??s long-term growth ambitions.â?•

About Xryma Plc

Xryma Plc is a regulated European bank-tech group that develops banking technology via its ProbanxÂ® subsidiary and operates digital payment services underpinned by direct central-bank settlement. Xryma is one of the first non-bank participants authorised to connect directly to the Eurosystemâ??s T2 RTGS and TIPS platforms. The company holds Electronic Money Institution (EMI) authorisations in both the EU and the UK and offers multi-currency corporate accounts. Its open-banking service, PaidByÂ®, delivers one of the worldâ??s first cross-border, account-to-account, dynamic-currency-converting service for merchants, with instant local payments and next-business-day settlement in major and exotic currencies. Xryma is also the issuer of the upcoming electronic-money token XrymaCoin (XREUR).
