COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

MUNICH, June 26, 2026 /PRNewswire/ â?? ZOE Energy Storage, a global BNEF Tier 1 energy storage solution provider, marks its consecutive appearance at Intersolar Europe 2026 with a renewed strategic positioning as an â??AI-driven, full life-cycle distributed energy solution provider.â?• The company showcased its Z-BOX full-scenario smart ESS powered by ZOE AI-EMS, released a Microgrid Application White Paper and green financing solutions, and secured multiple project signings during the show.

At the core of its exhibition, ZOE addressed key challenges in Europeâ??s energy transition â?? revenue uncertainty, operational complexity, and inefficient asset management â?? by presenting its proprietary Z AI-EMS and its core engine, ZOE PowerBrain. Unlike conventional EMS, Z AI-EMS features a cloud-edge collaborative architecture that transforms energy storage from passive hardware into intelligent digital assets.

ZOE presented its full-scenario product lineup, covering commercial & industrial, utility-scale, and microgrid scenariosâ??powered by the seamless-integrated Z AI-EMS intelligent strategy for optimized performance, less risk and more revenue, addressing diverse applications including energy arbitrage, demand charge management, and PV-storage synergy etc.

To accelerate C&I project deployment, ZOE launched a 0% interest flexible financing program in partnership with DLL Financial Solutions Partner, reducing upfront investment barriers for European clients and enabling faster project rollout.

On the manufacturing front, ZOE highlighted ZOEPLUS, a joint venture with Energy Pro Hungaryâ??The partnership brings together ZOEâ??s advanced ESS technologies with Energy Proâ??s European engineering and manufacturing expertise. ZOEPLUS plans to build two production facilities in Hungary and Saudi Arabia, this dual-site footprint further strengthens its local production and global supply chain, enabling fast and stable delivery across key global markets.

During the show, ZOE secured multiple project orders and signed a strategic ESG partnership with TÃ?V Rheinland, committing to deeper collaboration on sustainability and governance practices as the company scales its global operations.

â??We are proud to present not only our technology but also the partnerships and financial solutions that make clean energy more accessible,â?• said Jason Huang, Chairman of ZOE Energy Group. â??This year, we have fully integrated AI into our energy storage business, our logic is clear: storage as the foundation, AI at the core, and scenario-driven solutions that deliver real value, we are building a truly global and responsible energy storage ecosystem.â?•
