COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

Multi-year partnership delivers a modern, secure network solution while broadening DXC's role across Norske Skog's technology environment

OSLO, Norway, June 16, 2026 /PRNewswire/ - DXC Technology (NYSE: DXC), a leading enterprise technology and innovation partner today announced an expansion of its long-standing relationship with Norske Skog, a leading producer of publication paper and recycled containerboard in Norway. DXC will design, implement and operate a new software-defined wide area network (SD-WAN) - a modern, software-driven network that securely connects sites and over the next four years, while also serving as its primary technology partner and trusted advisor across its broader technology estate.

Norske Skog's network is the critical backbone connecting the company's physical locations including offices and mills. Because the infrastructure plays a central role in ensuring availability and security, reliable service delivery is paramount. In selecting DXC to support the transformation of its network services, Norske Skog sought a more robust and responsive solution to improve service quality. DXC's new network solution is designed to deliver stronger security, improved performance, greater scalability, and simplified management across Norske Skog's locations.

"We are pleased to expand our long-standing partnership with DXC Technology as we modernize our network infrastructure. With a new software-defined wide area network, we will benefit from secure, scalable connectivity across our sites, improving performance and supporting our continued digital development. We also value DXC as a trusted advisor across our broader technology landscape." Says Børge Teigland, CIO Norske Skog

"Expanding our relationship with Norske Skog reflects the trust we've built over time and DXC's ability to deliver in critical environments," said Espen Olsen, Managing Director DXC

Norway. “By modernizing Norske Skog’s network infrastructure and taking on a broader role across their technology operations, we’re helping build a stronger, more secure foundation that supports the business today and as it evolves.”

DXC Technology is a long-standing partner to Norske Skog with more than 20 years of experience delivering end-to-end business and IT services. Today, DXC manages a significant part of Norske Skog’s IT estate, reflecting a deep and strategic partnership built on trust, reliability, and consistent delivery. As a trusted advisor, DXC continues to support Norske Skog across infrastructure, applications, and operational services, helping to modernize and optimize its technology landscape.
