

Investment Opportunity â?? 1.5B Visits Later, Project Portal Is Winning the AI Companionship Race

Descrizione

COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

NEW YORK, May 14, 2026 /PRNewswire/ â?? ACF Investment Bank is pleased to present an AI investment opportunity in â??Project Portal,â?• a rapidly scaling platform that has surpassed 1.5B site visits in less than 2.5 years. Since launch the platform has signed up 48M registered users and acquired more than 1.4M subscribers, demonstrating strong user engagement and accelerating adoption.

The platform is powered by a proprietary LLM, fine-tuned on one of the largest datasets of real-time emotional and relational interactions globally. This dataset represents a compounding behavioral moat, enabling continuous improvement in personalization, retention, and conversational depth.

Today, Portal generates more than 2x the revenue of its next largest competitor and has the potential to scale from \$100M to \$1B ARR by 2031. Portalâ??s scale reflects strong user adoption and engagement, with 36M monthly unique visitors â?? making it one of the most visited platforms in the AI sector.

Portal has also demonstrated exceptional financial performance, reaching \$105M in ARR within just 2.5 years (equivalent to \$1.5M ARR per employee) while being consistently profitable with double digit EBITDA margin and fully bootstrapped.

The Future of Project Portal

Portal has built a scalable foundation for expansion across multiple verticals, positioning the company to evolve beyond companionship into a trusted digital relationship layer, expanding into high-value services such as personal concierge, travel planning, elderly care support, and fitness coaching.
