

StarCompliance and Kalshi Launch First Enterprise-Grade Global Prediction Market Compliance Solution

Descrizione

COMUNICATO STAMPA - CONTENUTO PROMOZIONALE

New offering extends surveillance and oversight across off-chain and on-chain prediction market activity for financial services firms

ROCKVILLE, Md., June 17, 2026 /PRNewswire/ - StarCompliance (Star), a leading provider of employee and firm compliance technology solutions, today announced a strategic partnership with Kalshi, the world's largest prediction market, to launch the financial industry's first enterprise-grade global compliance solution, purpose-built to monitor employee participation across prediction markets.

The new capability expands Star's established digital asset and traditional security employee compliance framework, enabling firms to ensure compliance with policies by monitoring prediction market activity on Kalshi, all from one centralized compliance platform.

As prediction markets continue to grow, financial institutions face new risks as employees have an additional avenue to profit from misuse of material non-public information (MNPI). Traditional compliance programs are not designed to address this new blind spot.

"Prediction markets represent a rapidly emerging area of employee conduct and MNPI risk," said Kelvin Dickenson, Chief Product Officer at Star. "As these markets evolve globally, firms need surveillance capabilities that adapt across jurisdictions and provide meaningful visibility into both on-chain and off-chain prediction market activity."

Star's new Prediction Markets Monitoring solution provides:

"Prediction markets are becoming an increasingly important part of the global financial ecosystem," said Max Crowley, VP of Business Development at Kalshi. "As institutional adoption accelerates,

firms require compliance infrastructure that supports responsible participation while adapting to evolving regulatory expectations. We've always been compliance-obsessed at Kalshi, and we're thrilled to partner with Star to bring enterprise-grade oversight and expertise to this emerging market category.

Through the partnership, Star and Kalshi will support firms as prediction market regulations, trading behaviors, and supervisory expectations continue to evolve, combining technology integration with ongoing compliance expertise.

To learn more, join our upcoming webinar Product Spotlight: Launching Prediction Markets Monitoring with StarCompliance + Kalshi on July 16th at 10 AM ET which will include a live product demonstration. Click [HERE] to reserve your space.

About Kalshi
