COMUNICATO STAMPA â?? CONTENUTO PROMOZIONALE

Multi-Year Agreement Extends Merchant Cybersecurity Protection Across North America and EMEA

CHICAGO and DUBLIN, Oct. 20, 2026 /PRNewswire/ â?? VikingCloud, a cybersecurity and compliance company utilized by more than four million businesses worldwide, today announced a multi-year agreement with Fiserv, Inc. (NASDAQ: FISV), a leading global provider of payments and financial services technology, to help businesses strengthen their cybersecurity defenses and simplify PCI compliance.

Beginning in early 2027, Fiserv will offer VikingCloud Cyber Risk Defense, an award-winning solution designed to help businesses identify, understand, and reduce cybersecurity risk through continuous monitoring and actionable guidance.

â??Business owners shouldnâ??t have to become cybersecurity experts to protect what theyâ??ve built,â?? said Mark Brady, Chief Executive Officer at VikingCloud. â??Theyâ??ve told us what they need: protection that works in the background, plain-language guidance on what to fix first, and peace of mind if something goes wrong. Together with Fiserv, weâ??re giving merchants cybersecurity that simply works, so they can get back to running their business.â??

Cyber Risk Defense, named Best Security

Compliance Solution at the 2026 teissAwards, helps protect merchants against common attacks, including phishing, ransomware, and business impersonation. The solution features a Security Score that combines VikingCloudâ??s patented risk scoring with Mastercardâ??s cyber risk intelligence, giving merchants a simple A-to-F grade that turns complex risk into something any owner can understand.

Every enrolled merchant gets measurable value from day one, including built-in cyber insurance. Merchants who choose to take a few simple steps unlock even more protection. The solution's modular architecture also provides flexibility for larger commercial and mid-market organizations seeking more advanced cybersecurity capabilities.

“For small and mid-sized businesses, staying secure is now part of staying in business,” said Lia Cao, Chief Revenue Officer, Enterprise and Platforms, Fiserv. “By expanding our relationship with VikingCloud, we’re helping merchants take a more proactive approach to cybersecurity with solutions that are simple to adopt, easy to understand, and designed to deliver continuous protection.”
